Z

Zachary, Christopher H, 453
Zadra, C, 441

A

Abdominal pain
  recurrent, evaluation and management — 267
  sickle cell anemia, crisis with ischemic colitis — 241

Abdominal trauma resulting in intramural hematoma of the colon — 373

Acetaminophen, risk of toxicity — 133

5-acetylsalicylic acid (5-ASA) therapy for Crohn's disease, interstitial nephritis risk — 253

Adenosine deaminase (ADA) deficient severe combined immunodeficiency disease (SCID) — 183

Adenotonsillar hypertrophy and obstructive sleep apnea — 103

Adolescent health
  Chlamydia trachomatis in a juvenile detention facility — 521
  emergency department utilization by adolescents — 479
  Neisseria gonorrhoeae and *Chlamydia trachomatis* — 173
  osteoporosis risk reduction — 565
  reading skills, risk behavior and health — 275
  risks vs benefits of sports — 161
  sex, drugs and violence — 657

Affirmative action and medical school admission criteria — 315

African Americans
  asthma medications, children's self-administration of — 337
  infant sleep positions — 285
  lipid profiles after weight loss — 427

Albuterol and recurrent supraventricular tachycardia — 673

Allergies to tobacco, and passive smoke exposure — 485

Amputation, traumatic, hypertension associated with — 417

Aneurysm, false, of the external carotid artery — 440

Anticonvulsant hypersensitivity syndrome vs. Kawasaki disease — 109

Aortic dissection, acute: etiologic factors — 71

Apnea, obstructive sleep: morbidity due to — 103

Apnea of prematurity, management of — 327

Aspirin use and Reye's syndrome reporting — 245

Asthma medications
  children's self-administration of — 337, 347
  tachycardia and albuterol treatment — 673

Athletes
  acute aortic dissection — 71
  bone mass, optimizing in adolescents — 565
  risks vs benefits of sports — 161

Atopic dermatitis, diagnosis and management of — 1

Atrial fibrillation, spontaneous-onset — 453

Attention deficit hyperactivity disorder and comorbid aggressive oppositional defiant disorder or conduct disorder — 15

Autistic spectrum disorders
  laboratory assessment of — 669
  neurodevelopmental profile — 663

Autoimmune disease associated with celiac disease — 229

Avascular necrosis following treatment for congenital hip dysplasia — 307

Awards, commentary on — 411

B

"Back to Sleep" campaign and sudden infant death syndrome (SIDS) — 285, 403

Bedwetting. *See* enuresis, nocturnal

Bezoars, stone, in the sigmoid colon — 501

Bladder aspiration, suprapubic — 625

Blastomycosis, pulmonary outcome — 27

Blood glucose monitoring
  children's skills — 347, 351
  promising new methods — 257

Body temperature, reference range for neonates — 503

Bone mass, optimizing in adolescents — 565

Brain abscess presenting as a febrile seizure — 365

Bronchiolitis therapy with bronchiodilators and corticosteroids — 213, 624

Bronchoscopy, flexible fiberoptic, to confirm endotracheal tube placement — 303

Burn patients, fever and infectious complications — 553

C

Caffeine citrate for apnea of prematurity — 327

Cardiac murmur with otherwise normal exam — 511

Cardiovascular abnormalities. *See also* tachycardia
  structural heart disease in asymptomatic neonates with murmur — 511

Cavernous transformation of the portal vein — 727

Celiac disease, diabetes mellitus type 1, hypothyroidism, chronic liver disease and selective IgA deficiency (case report) — 229

Cerebellar hemorrhage and ultrasound brain exam in preterm infants — 613

CHARGE association and hypertrophic pyloric stenosis — 623

Chest radiographs
  bacterial vs viral infections, differentiating — 627
  to confirm endotracheal tube placement — 303

Child abuse
  circumcision as, controversy over — 65, 129
  patterns of family violence and sexual abuse — 33, 41
  potential for in infant colic syndrome — 395, 401

Chlamydia trachomatis
  in a juvenile detention facility — 521
  and *Neisseria gonorrhoeae* in adolescent women — 173, 378

Cholesteatoma, congenital, of the middle ear — 549

Chromosomal abnormalities
  in autistic spectrum disorders — 669
  and postnatal developmental delay — 233

Circumcision
  controversy over — 65, 129
  perianal streptococcal dermatitis and — 500
  resulting in trapped penis — 129
  urinary tract infections and NICU patients — 299

Clavicular fracture in the newborn — 695

Clinic visits, well-child
  frequency of, effect of telephone follow-up after free immunization visit — 679
  growth pattern assessment — 97
  literacy intervention program in — 535

Clonidine and methylphenidate for attention deficit hyperactivity disorder with conduct disorder — 15

Colic
  management of — 401
  mothers' emotional states and — 395, 401

Colitis, ischemic, in sickle cell anemia — 241

Colon, intramural hematoma of, after abdominal trauma — 373

Colonic obstruction due to a stone bezoar — 500

Compliance with therapy/interventions
  asthma medications, children's self-administration of — 337, 347
  children's blood glucose monitoring skills — 347, 351
  with immunization schedules — 51, 679
  lead reduction strategies, knowledge vs compliance — 643

Conduct disorder or aggressive oppositional defiant disorder in children with attention deficit hyperactivity disorder — 15

Congenital anomalies
  CHARGE association and hypertrophic pyloric stenosis — 623

Constipation, chronic
  Crohn's disease presenting as — 369
  fecal soiling, treatment of — 603

Contraception, hormonal, and bone mass — 565

Corticosteroids
  and albuterol for bronchiolitis — 213, 624
  for atopic dermatitis — 1

Costs of health care — 221

Crohn's disease
  interstitial nephritis while on 5-ASA — 253
  presenting as chronic constipation — 369

D

Dermatitis, perianal streptococcal, and digital desquamation — 237, 500

Desmopressin for nocturnal enuresis — 259

Development
  assessment with CAT/CLAMS — 663
  laboratory assessment of autistic spectrum disorders — 669
  neurodevelopment profile in autistic spectrum disorders — 663
  neurological outcome in ECMO vs near-miss ECMO patients — 145
  outcomes in very-low-birth-weight infants — 441, 451

postnatal developmental delay and chromosomal abnormalities — 233

Diabetes insipidus, hypopituitarism and morbid obesity — 169

Diabetes mellitus type I
advances in management and prevention — 257
celiac disease, hypothyroidism, chronic liver disease and selective IgA deficiency (case report) — 229
children's blood glucose monitoring skills — 347, 351
intractable hypoglycemia, nephrectomy and hepatitis — 557
medications, children's self-administration of — 337, 347

Diabetes mellitus type II
necrobiosis lipodica diabeticorum — 439

Disabled children, quality of life issues — 575

Discharge of neonates, period needed to identify problems — 581

Domestic abuse, relationship to child abuse and sexual abuse — 33, 41

Drug, alcohol and tobacco use by adolescents — 657

E

Ear lesions
congenital cholesteatoma of the middle ear — 549
otitis media, brain abscess as complication of — 365

ECMO (extracorporeal membrane oxygenation): neurodevelopmental outcome of patients — 145

Education
affirmative action and admission criteria — 315
faculty duties vs compensation — 167
fiscal challenges and academic primary care clinics — 473
lecturing for continuing medical education — 291
residency training in school health — 615
of residents by hospitalists — 67
a role model for teaching pediatricians — 543

Elemental diet, in infant with pyloric stenosis — 55

Emergency department utilization by adolescents — 479

Emphysema, pulmonary interstitial, delayed presentation of — 299

Encopresis, treatment of — 603

Endotracheal tube placement confirmed with flexible fiberoptic bronchoscopy — 303

Enterovirus detection in cerebrospinal fluid by PCR — 203, 209

Enuresis, nocturnal
causes, investigation and management of — 379
effectiveness of treatments for — 359

Eosinophilic gastroenteritis — 55

Epilepsy
refractory to drug therapy, ketogenic diet for — 153
sleeping arrangements as indicator of parental anxiety — 635

Erythema multiforme: features overlapping toxic epidermal necrolysis and Stevens-Johnson syndrome — 687

Ethical issues with children with multiple disabilities — 575

F

Fat necrosis, subcutaneous in a neonate — 254

Febrile infants
infections and "normal" body temperatures — 503
management protocols for — 81

Fecal soiling, combined treatment approach — 603

Fever in burn patients, infectious complications — 553

Fever of unknown origin, long-term follow-up — 715, 719

Financial issues
faculty duties vs compensation — 167
fiscal challenges and academic primary care clinics — 473
lecturing for continuing medical education — 291
reimbursement type and content of medical visits — 591

G

Genetic studies and postnatal developmental delay — 233

Gentamicin-induced syndrome of hypokalemic metabolic alkalosis — 529

Glomerulonephritis, acute poststreptococcal — 721

Growth pattern assessment — 97

Guns, BB and Pellet: parental attitudes — 281

H

Health care system
hospitalist programs — 167
and insurance — 167

pediatrics, history of the specialty — 705

Heart disease, structural, in asymptomatic neonates with murmur — 511

Hematoma of the colon, intramural, after abdominal trauma — 373

Hemorrhage, intraventricular, and thyroid function in very-low-birth-weight infants — 651

Hepatitis and diabetes mellitus type I with intractable hypoglycemia and nephrectomy — 557

Hepatitis B immunization policies — 723

Hepatotoxicity of acetaminophen — 133

Hip dysplasia, congenital: avascular necrosis following treatment — 307

Hospitalist programs
at an academic medical center — 221
and resident education — 67

Hyperbilirubinemia and methylene blue — 659

Hypercalcemia — 254

Hyperinsulinemic hypoglycemia: Munchausen syndrome by proxy — 117

Hypersensitivity, delayed, to anticonvulsants — 109

Hypertension after traumatic amputation — 417

Hypertensive crisis and Kawasaki disease — 413

Hypnosis: treating mind and body — 433

Hypoglycemia, hyperinsulinemic: Munchausen syndrome by proxy — 117

Hypoglycemia, intractable, in diabetes mellitus type I in patient with nephrectomy and hepatitis — 557

Hypokalemic metabolic alkalosis, gentamicin-induced syndrome — 529

Hypopituitarism, diabetes insipidus and morbid obesity — 169

Hypothermia and infections in neonates — 503

I

Ibuprofen use and Reye's syndrome reporting — 245

Imipramine for myelodysplasia and urinary incontinence — 489

Immunization
effect of telephone follow-up on well-child visits — 679
hepatitis B, policies — 723
impact of AAP medical home on status — 89
polio, compliance with sequential schedule for — 51
predictors of poor outcome — 89

Infections, bacterial
evaluation and management of febrile infants — 81, 501
urinary tract infections — 299, 461, 499, 625

Infections, congenital
gonorrhea — 43
group B streptococcus, prevention and management — 317
malaria — 66
rubella, after maternal reinfection — 113

Insulin delivery, advances in — 257

Internet, quality of medical information — 68

Internet, usage patterns by families — 68

Irritable bowel syndrome — 267

K

Kawasaki disease
anticonvulsant hypersensitivity syndrome resembling — 109
differential diagnosis of — 413
and polyarteritis nodosa — 413

Ketogenic diet for epilepsy refractory to drug therapy — 153

L

Laboratory tests ordered, effect of physician reimbursement type — 591

Lead reduction strategies, knowledge vs compliance — 643

Lipid profiles after weight loss, racial differences in — 427

Listeria monocytogenes meningitis — 295

Literacy
clinic-based literacy intervention program — 535
and health behaviors in adolescents — 275

Liver: hepatotoxicity of acetaminophen — 133

M

Malaria, congenital, diagnosis and therapy — 66

Meconium periorchitis causing a scrotal mass — 179

Medical home concept — 89, 679

Medications, children's self-administration of — 337, 347

Meningitis
enterovirus detection in cerebrospinal fluid by PCR — 203, 209

Listeria monocytogenes meningitis — 295

Mental and physical well-being of patients — 433

Mental health and sports participation — 161

Methylene blue, adverse reactions to in a neonate — 659

Methylphenidate and clonidine for attention deficit hyperactivity disorder with conduct disorder — 15

Munchausen syndrome by proxy — 117

Mycoplasma pneumoniae associated with Stevens-Johnson syndrome — 546
- neurological manifestations of infections — 195

Myelodysplasia and urinary incontinence — 489

N

Nasal trauma resulting in septal hematoma and abscess — 609

Native American families and infant sleep positions — 403

Necrobiosis lipodica diabeticorum — 439

Neisseria gonorrhoeae
- and *Chlamydia trachomatis* in adolescent women — 173
- gonococcal bacteremia in a neonate — 43

Neonates. *See also* infections, congenital
- apnea of prematurity, management of — 327
- cardiac murmur with otherwise normal exam — 511
- cerebellar hemorrhage and ultrasound brain exam in preterm infants — 613
- clavicular fracture in — 695
- fat necrosis, subcutaneous — 254
- group B streptococcal infections — 317
- management protocols for febrile infants — 81
- methylene blue, adverse reactions to — 659
- need for follow-up after early discharge — 581
- reference range for body temperature — 503
- scrotal hemorrhage, idiopathic — 493
- scrotal mass caused by meconium periorchitis — 179

Nephrectomy patient with hepatitis and diabetes mellitus type I with intractable hypoglycemia — 557

Nephritis, interstitial, in Crohn's disease patients on 5-ASA — 253

Neurodevelopment
- assessment in autistic spectrum disorders — 663, 669
- outcome in ECMO vs near-miss ECMO patients — 145
- in very-low-birth-weight infants — 441, 451

Neurological manifestations of *Mycoplasma pneumoniae* infections — 195

Nutrition
- bone mass, optimizing in adolescents — 565
- ethical issues with children with multiple disabilities — 575
- feeding protocol after pyloromyotomy — 187
- ketogenic diet for epilepsy refractory to drug therapy — 153

O

Obesity, lipid profiles after weight loss — 427

Obesity, morbid, diabetes insipidus and hypopituitarism — 169

Oliguria and surfactant treatment — 421

Optic nerve hypoplasia in septo-optic dysplasia — 45

Otitis media, brain abscess as complication of — 365

Oxybutynin for nocturnal enuresis — 259

P

Palpable spongy mass sign and clavicular fracture in the newborn — 695

Parents
- attitudes towards BB and pellet guns — 281
- colic and mothers' emotional states — 395, 401
- compliance with sequential schedule for polio immunization — 51
- lead reduction strategies, knowledge vs compliance — 643
- perception of children's self-administration of asthma medications — 337, 347
- perception of physician helpfulness, with clinic-based literacy program — 535
- and quality of medical information on the Internet — 69
- sleeping arrangements as indicator of parental anxiety in epilepsy — 635
- smoking cessation program for — 121

Parietal whorls, double — 255

Pediatrics, history of the specialty — 705

Penis, trapped (postcircumcision) — 129

Phototoxicity and methylene blue — 659

Physicians
academic medicine: faculty duties vs compensation — 167
affirmative action and medical school admission criteria — 315
hospitalists — 67, 221
lecturing for continuing medical education — 291
parents' perception of physician helpfulness — 535
reimbursement type and content of medical visits — 591
residency training in school health — 615
treating mind and body — 433

Pica and toxic substance ingestion — 624

Pleconaril for enteroviral disease — 209

Pneumonia
etiologic diagnosis of — 627
Mycoplasma pneumoniae associated with Stevens-Johnson syndrome — 546
in wheezing infants and toddlers — 387

Polio immunization, compliance with sequential schedule for — 51

Polyarteritis nodosa and Kawasaki disease — 413

Polymerase chain reaction (PCR) for detection of enterovirus in cerebrospinal fluid — 203, 209

Portal vein, cavernous transformation of — 727

Prednisolone and albuterol for bronchiolitis — 213, 624

Primary care clinics, academic, fiscal challenges — 473

Pulmonary function following blastomycosis — 27

Pulmonary interstitial emphysema, delayed presentation of — 299

Pyelonephritis in hospitalized patients — 461

Pyloric stenosis, hypertrophic
and CHARGE association — 623
and eosinophilic gastroenteritis — 55
feeding protocol after pyloromyotomy — 187

Q

Quality of life issues with disabled children — 575

R

Reading skills. *See* literacy

Rectal prolapse resulting from sexual abuse — 131

Renal toxicity of gentamicin — 529

Renal ultrasound and pyelonephritis — 461

Respiratory distress syndrome
and pulmonary interstitial emphysema, delayed presentation of — 299
surfactant treatment and urine output — 421

Respiratory failure: follow-up of ECMO patients — 145

Respiratory tract illnesses
bacterial vs viral infections, differentiating — 627
bronchiolitis therapy with prednisolone and albuterol — 213, 624
Mycoplasma pneumoniae infections — 195
smoking cessation program for parents — 121
tobacco allergy and passive smoke exposure — 485
wheezing, findings associated with focal infiltrates — 387

Reye's syndrome reporting and ibuprofen use — 245

Risk behaviors
and *Chlamydia trachomatis* in adolescents — 521
and reading skills in adolescent females — 275
and sports participation — 161

Rothenberg, Dr. Michael — 543

Rubella: congenital rubella syndrome — 113

S

School health, residency training in — 615

Scrotal hemorrhage, idiopathic neonatal — 493

Scrotal mass caused by meconium periorchitis — 179

Seizure, febrile, in a patient with a brain abscess — 365

Septal hematoma and abscess after nasal trauma — 609

Septo-optic dysplasia — 45

Severe combined immunodeficiency disease (SCID) — 183

Sexual abuse
rectal prolapse resulting from — 131
relationship to child abuse and domestic abuse — 33, 41

Sexually transmitted diseases
Chlamydia trachomatis in a juvenile detention facility — 521
gonococcal bacteremia — 43
Neisseria gonorrhoeae and *Chlamydia trachomatis* in adolescent women — 173

Sickle cell anemia crisis with ischemic colitis — 241

Skin conditions
atopic dermatitis, diagnosis and management of — 1
necrobiosis lipodica diabeticorum — 439
perianal streptococcal dermatitis and digital desquamation — 237, 500
toxic epidermal necrolysis, features overlapping Stevens-Johnson syndrome and erythema multiforme — 687

Sleeping arrangements as indicator of parental anxiety in epilepsy — 635

Sleep position and sudden infant death syndrome (SIDS) — 285, 403

Smoking
respiratory tract illnesses and smoking cessation program for parents — 121
tobacco allergy and passive smoke exposure — 485

Snoring and obstructive sleep apnea — 103

Splenomegaly cavernous transformation of the portal vein — 727

Stevens-Johnson syndrome
features overlapping toxic epidermal necrolysis and erythema multiforme — 687
Mycoplasma pneumoniae associated with — 546

Streptococcal infections
group A, vulvovaginitis and acute glomerulonephritis — 721
group A beta-hemolytic, associated with perianal dermatitis — 237, 500
group B, prevention and management — 317

Sudden infant death syndrome (SIDS) and sleep position — 285, 403

Suprasellar dysplasia — 45

Surfactant treatment and oliguria — 421

T

Tachycardia
and albuterol treatment — 673
narrow-complex — 453

Testicular torsion — 493

Theophylline for apnea of prematurity — 327

Thrombocytopenia
cavernous transformation of the portal vein — 727

Thrombocytosis in response to PEG-ADA (adenosine deaminase) — 183

Thyroid function, natural course of in very-low-birth-weight infants — 651

Tobacco allergy and passive smoke exposure — 485

Tonsillectomy and false aneurysm of the external carotid artery — 440

Toxic epidermal necrolysis — 687

Toxic megacolon secondary to Crohn's disease — 369

Toxic substance ingestion and pica — 624

U

Ultrasound brain exam in preterm infants with cerebellar hemorrhage — 613

Urinary incontinence in myelodysplasia — 489

Urinary tract infections
circumcision and NICU patients — 299
evaluation of hospitalized patients — 461
false-positive urine cultures using bag collection — 499
obtaining urine by suprapubic bladder aspiration — 625

Urine cultures, false-positive, using bag collection — 499

V

Very-low-birth-weight infants
neurodevelopmental deficits — 441, 451
thyroid function and intraventricular hemorrhage — 651

Violence in the media — 543, 657

Vulvovaginitis, streptococcal, and acute glomerulonephritis — 721

W

Weight loss, racial differences in lipid profiles after — 427

Well-child care
frequency of, effect of telephone follow-up after free immunization visit — 679
growth pattern assessment — 97
literacy intervention program in — 535

Wheezing, findings associated with focal infiltrates — 387
